2025

Holina Village is a premier rehabilitation center located in Cyprus, dedicated to empowering teens, adolescents, and young adults aged 15 to 25 through holistic addiction treatment, behavioral health services, and a therapeutic community model. Our comprehensive programs are designed to promote healing and personal growth, allowing individuals to plan their lives with **meaning** and **purpose** whilst in a supportive environment.

A Haven for Healing

Situated in the serene hills of Achnas, Cyprus, Holina Village offers a safe and contained space, operating as a farm with both animals and orchards. Our programs cater to individuals experiencing struggles with addictions, alcohol & drug dependencies, self-harm, trauma, stress, burnout, anxiety, depression, and other emotional or behavioral challenges or traumas that have made daily life difficult in their home settings. All our air-conditioned bedrooms are en-suite and tastefully decorated, ensuring comfort and privacy for our residents.

Holistic Approach to Recovery

At Holina Village, we believe in addressing the physical, emotional, psychological, and spiritual needs of each individual. Our holistic approach integrates traditional therapies like cognitive behavioral therapy (CBT) with advanced methods such as Dialectical Behavior Therapy (DBT), Acceptance and Commitment Therapy (ACT), Motivational Interviewing (MI), and Neuro-Linguistic Programming (NLP). We also incorporate creative therapies, including art therapy, music therapies, adventure-based challenges, outdoor therapies, and movement therapies providing comprehensive support for recovery.

Comprehensive Youth Services

Our programs cater to individuals experiencing struggles with addictions, alcohol & drug dependencies, self-harm, trauma, stress, burnout, anxiety, depression, and other emotional or behavioral challenges. We offer specialized services for ages 15 - 25, recognizing that their recovery needs will differ. Whether seeking addiction treatment or trauma recovery, we ensure that every client's journey is unique and tailored as much as possible to their specific needs.

Educational Collaboration

For residents wishing to continue their education whilst in treatment, this can be facilitated by the current school remotely or we can liaison with UCLan. Understanding the importance of continued education, Holina Village collaborates with UCLan Cyprus (University of Central Lancashire), which has been awarded the maximum 5 QS Stars for their international university programs. This partnership leads our residents through certified courses developed specifically for Holina Village residents, as well as a broad spectrum of mainstream courses, fostering personal development and employability skills.
